

active clay cleanser

powered by skin-balancing prebiotics

description

Dual-action, mineral-rich clay and charcoal formula deeply purifies to help balance oily skin. Active Clay Cleanser delivers a powerful prebiotic to nourish skin's beneficial bacteria while protecting skin's moisture barrier – delivering 30% more cleansing power while helping to balance the microbiome.*

*as compared to Dermal Clay Cleanser.

key benefits

- **Balances** oily skin and the microbiome.
- **Purifies** pores for smooth, revitalized skin.
- **Protects** skin's natural lipid barrier.

key ingredients

- **Kaolin Clay** absorbs excess oil and refines pores.
- **Activated Binchotan Charcoal** powerfully adsorbs impurities to help balance skin.
- **Botanical lipids** and **Murumuru Seed** attract and remove excess oil from skin while helping to protect its natural lipid barrier and promote a healthy microbiome.
- **Bioflavonoid-rich complex of Citrus, Aloe and Broccoli Extract** helps purify pores while leaving skin smooth, refined and revitalized.
- **Glycerol** delivers powerful prebiotic benefits, stimulating skin's natural defenses and providing “food” to help skin's good bacteria flourish.

how to use it

Massage onto dampened face and neck. Rinse with warm water.

product system

Daily Skin Health

frequently asked questions

What's the difference between new Active Clay Cleanser and (discontinued) Dermal Clay Cleanser?

Active Clay Cleanser delivers a powerful prebiotic to nourish skin's beneficial bacteria. At the same time, it delivers 30% more cleansing power to leave skin refined, revitalized and purified.

Why was Dermal Clay Cleanser discontinued?

In addition to outperforming Dermal Clay Cleanser, new Active Clay Cleanser leverages the latest scientific insights surrounding the unique needs of oily skin to help it stay in balance.

How often should I use Active Clay Cleanser?

We recommend using Active Clay Cleanser twice a day – after PreCleanse – as part of the Dermalogica Double Cleanse.

Why is Active Clay Cleanser gray in color?

Active Clay Cleanser's color comes from a blend of Kaolin Clay, which absorbs excess oil, and Activated Binchotan Charcoal, which adsorbs oil and impurities to help balance skin.
