frequently asked questions

Where does Cooling Aqua Jelly go in my client's regimen?

Cooling Aqua Jelly can be applied after cleansing and toning, morning and night. It should be used after serum and under SPF.

What is the difference between Cooling Aqua Jelly and Skin Soothing Hydrating Lotion?

Cooling Aqua Jelly is an ultra-lightweight moisturizer formulated for oily skin while Skin Soothing Hydrating Lotion is a lightweight moisturizer for normal to combination skin. Both moisturizers help hydrate skin and are formulated for clients with breakout-prone skin.

What gives Cooling Aqua Jelly its blue color?

The blue color comes from a blend of botanical extracts: Chinaberry Leaf/Flower, Red Algae, Ivy Gourd Fruit, Eggplant Fruit, Aloe Flower, Holy Basil Leaf and Turmeric Root.

Is the Cooling Aqua Jelly tube sustainable?

Yes. To reduce our packaging footprint, the Cooling Aqua Jelly tube is made of 38% recycled plastic.

What is the appropriate age range for Clear Start?

Clear Start is ideal for clients in their teens and early 20s.

What is the difference between Clear Start and Active Clearing?

Clear Start is formulated for younger skin, which is more likely to experience rampant breakouts due to excess oil. Active Clearing is formulated for more mature skin, which is likely to experience recurring hormonal breakouts, slower cell turnover, and post-inflammatory hyperpigmentation.

Is Cooling Aqua Jelly vegan?

Yes, all Clear Start products are vegan, gluten-free and cruelty-free. They are also formulated without artificial fragrances and colors.
