

PRO nanoinfusion

ADVANCED RESULTS FOR VISIBLY SMOOTHER SKIN

dermalogica PRO

what is nanoInfusion?

NanoInfusion goes by various names such as Microexfoliation, Nanoneedling or Nano exfoliation. It is a non-invasive procedure that involves the use of a pen style modality and nano-tips instead of needles. It uses very tiny cones formed of stainless steel that do not penetrate the skin, but do help with resurfacing and product infusion. This is an alternative treatment for clients who do not want any downtime or those who may be contraindicated to microneedling. It can also improve skin texture, boost hydration and address signs of premature skin aging. The most immediate, visible change in the skin is a hydrated glow.

introducing
pro
nanofusion

Dermalogica's Pro NanoInfusion treatment delivers advanced professional results for skin texture and signs of aging.

This treatment uses innovative techniques and powerful, professional-grade actives to instantly help:

- **Diminish** the appearance of lines and wrinkles
- **Brighten** the complexion
- **Smooth** the appearance of skin

service highlights

Pro NanoInfusion has a unique approach which includes up to two opportunities in the service where a pen may be used to accelerate resurfacing and enhance the professional serum application.*

1. resurfacing

Professional serums are used with the Dermalogica NanoInfusion Technique.

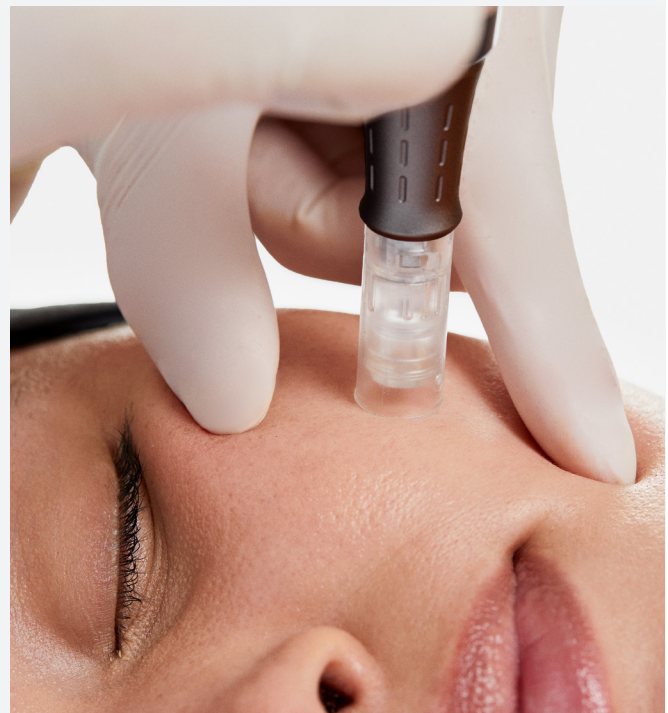

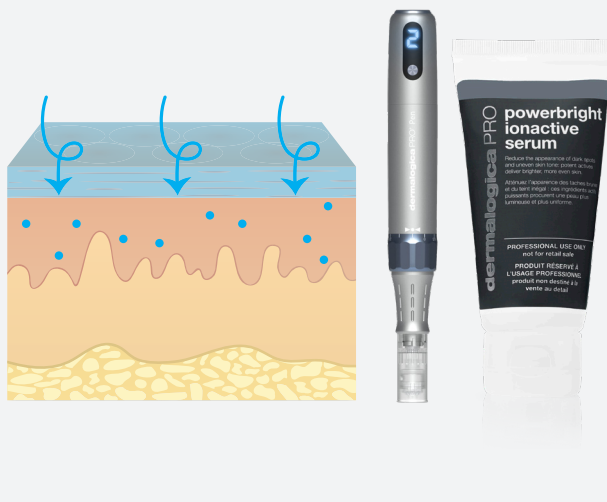

+ Power Up Option:

Use Exfoliant Accelerator 35 or MultiVitamin Power Exfoliant with NanoInfusion.

2. deep treatment

Customized professional serums are applied with NanoInfusion followed by the application of the skin specific professional masque.

*See full protocol on page 10.

client results for every concern

Pro NanoInfusion allows you to unlock advanced results on 4 skin concerns. Whether your client needs to target dull skin, appearance of large pores, hyperpigmentation or wrinkles, simply follow one of the service and home care plans outlined below.

We recommend scheduling a series of 3-5 Pro NanoInfusion services every 4 weeks.

Concern	Preparation				Recovery	
	Double Cleanse	Resurfacing	Extractions	Deep Treatment	Dermal Layering	Home Care
Lackluster and Dull Skin						
Pore Refining						
Uneven Skin Tone						
Appearance of Lines and Wrinkles						

professional serums for pro nanoInfusion

Customize your NanoInfusion services and increase their efficacy by applying one of our professional serums. Select the one that best targets your clients' skin concerns and needs. At Dermalogica, safety comes first. Rest assured, our serums have been reviewed by a third-party safety assessor. Now you can provide superior results, without the risk.

biolumin-c pro serum

A high-performance professional serum that brightens, firms and helps reduce the appearance of fine lines and wrinkles.

benefits

- Ultra-stable formula.
- 3x more Vitamin C in the treatment room.*

**Delivers 3x more Vitamin C than a leading competitor.*

key ingredients

- **Vitamin C Complex** uses two highly stable forms of Vitamin C to fight oxidative stress for brighter, firmer, more radiant skin.
- **Sophora Japonica Flower Extract** provides antioxidant benefits.
- **Salvia Hispanica (Chia Seed) Oil** is rich in antioxidants that help quench free radicals, and it contains more than 60% Omega-3 Fatty Acid – one of the highest concentrations of any plant source.

niacinamide ionactive serum

A clearing serum with Niacinamide (Vitamin B3).

benefits

- Targets buildup of bacteria and dead skin cells in pores and follicles.
- Reduces redness without drying the skin.

key ingredients

- **Niacinamide:** an active form of Vitamin B3 that has been shown to help clear breakouts, reduce sebum and decrease Post Inflammatory Hyperpigmentation (PIH).
- **Microencapsulated Potassium Azeloyl Diglycinate:** a stable derivative of Azelaic Acid.
- **Colloidal Silver:** ingredient known for its efficacy on Cutibacterium Acnes (C. Acnes).

powerbright ionactive serum

A professional serum that uses potent actives to reduce the appearance of dark spots and uneven skin tone.

benefits

- Helps reduce dark spots.
- Brightens skin.
- Evens skin tone.

key ingredients

- **Niacinamide** and **Hexylresorcinol** help fade the look of uneven pigmentation for more luminous skin.
- **Digluco-syl Gallic Acid** helps control melanogenesis, reduce the appearance of dark spots and inhibit skin redness.
- **Oligopeptide-4** soothes and delivers antioxidant benefits that help fade dark spots and improve skin luminosity.
- **Magnesium Ascorbyl Phosphate (MAP)** – a stabilized form of Vitamin C that delivers high performance brightening and provides the skin with antioxidant benefits.

hyaluronic acid ionactive serum

A hydrating serum with Hyaluronic Acid that delivers intense moisture and protects dry, dehydrated and irritated skin.

benefits

- Protects skin from dehydration by locking in moisture.
- Calms sensitive skin and preserves barrier function.
- Restores moisture balance to promote smooth, uniform skin texture.

key ingredients

- **Hyaluronic Acid** is a well known humectant, which hydrates skin.
- **Microencapsulated Na2Acetyl Glucosamine Phosphate** helps maintain Hyaluronic Acid in the skin.
- **Pseudoalteromonas Ferment Extract, Alanine, Proline and Serine** restore skin moisture and help preserve barrier function.
- **Alisma Plantago Aquatica (Water Plantain) Extract** hydrates and soothes skin.

pro restore

A professional concentrate designed to work with advanced services to prepare the skin's barrier, restore its condition, help increase the appearance of firmness and brighten skin.

benefits

- Decrease downtime.
- Improve skin recovery.
- Amplify results.

key ingredients

- **Beta Glucan and Mushroom Extract** prepare skin for treatment.
- **Omega 3 and Bacillus Ferment** help restore skin's condition.
- Blend of **peptides and phospholipids from olive stem cells** help increase the appearance of firmness.
- **Niacinamide** helps brighten skin.

pro nanoinfusion protocol **60-minutes**

double cleanse:

1. Use PreCleanse for first cleanse.
2. Perform Face Mapping.
3. Apply skin-specific cleanser for second cleanse.

resurfacing:

1. Select professional exfoliant. Apply and remove as directed.
2. Apply professional serum.
3. Perform NanoInfusion over professional serum by following the Dermalogica NanoInfusion Technique. Adjust nano-tip length per area and skin's tolerance.
4. Remove professional serum with damp esthetic wipes or cotton.

Skin Concern	Professional Serum
Dull Skin	BioLumin-C Pro Serum (not for LED) or Pro Restore
Pore Refining	Niacinamide IonActive Serum or Pro Restore
Hyperpigmentation	PowerBright IonActive Serum or Pro Restore
Wrinkles	Hyaluronic Acid IonActive Serum or Pro Restore

+ Power Up Advanced option:

Perform NanoInfusion over selected exfoliant instead of over professional serum. Remove exfoliant as directed.

Skin Concern	Professional Serum
Dull Skin and Hyperpigmentation	Exfoliant Accelerator 35
Wrinkles and Pore Refining	MultiVitamin Power Exfoliant

extractions:

1. Apply Multi-Active Scaling Gel to areas of congestion.
2. Proceed with Dermalogica Extraction Technique.
3. Rinse skin with damp sponges or cotton.
4. Apply Post Extraction Solution.

deep treatment:

1. Apply skin-specific professional serum.
2. Option: Perform NanoInfusion over the professional serum before applying the masque.
3. Follow with an application of the appropriate professional masque. Remove it with a warm steam towel.

Pro Tip: Perform scalp or neck and shoulder touch therapy while the masque is on. Or, use LED light therapy over a clear masque.

dermal layering:

1. Spritz skin with toner.
2. Apply an eye treatment and skin-specific moisturizer.
3. Finish with Invisible Physical Defense SPF 30.

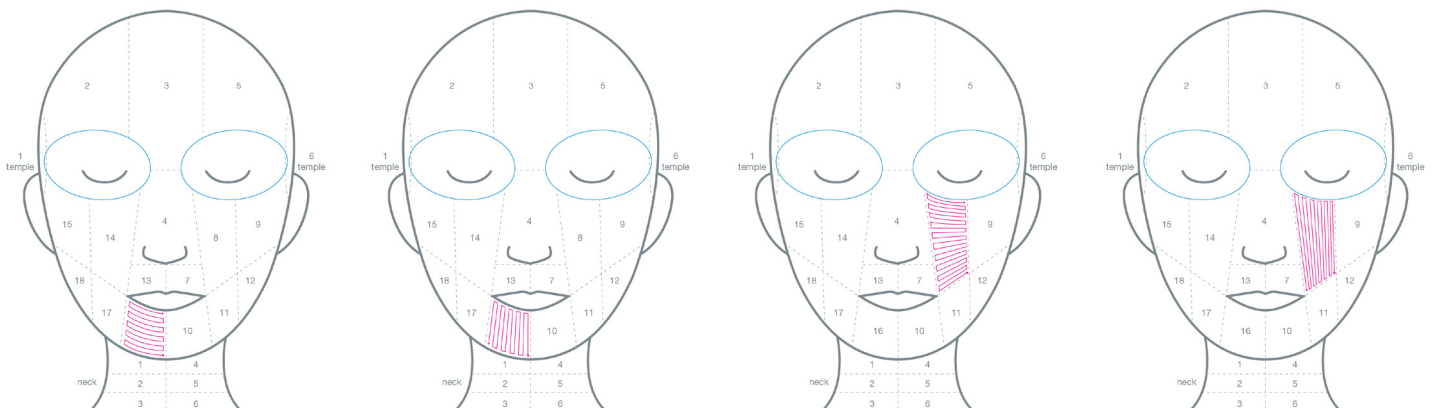

nanoinfusion: the dermalogica technique

The Dermalogica NanoInfusion Technique is a unique and precise method designed to amplify service results.

Benefits include:

- **Comfortable + Thorough:** The tool is moved in a methodical manner.
- **Easy-To-Use:** Our method allows for fewer stops and starts during application.
- **Health Benefits:** It encourages lymphatic movement while initiating a positive skin response.
- **Even + Complete Treatment:** Horizontal and vertical passes ensure complete skin coverage.
- **Customizable + Flexible:** Our method allows you to incorporate it with any nanoinfusion modality.

For more information on this technique, please contact your local Dermalogica education team.
