

exo booster microneedling

Experience the ultimate fusion of cutting-edge technologies designed to amplify the delivery of potent exosomes, breathing new life into your skin. Leave with your exclusive 7-day professional dose of booster serum to powerfully firm, smooth and rejuvenate your complexion like never before.

Exo Booster Microneedling Protocol

1. Double Cleanse

- **PreCleanse**
- Perform Face Mapping skin analysis.
- Skin-specific cleanser

2. Resurfacing

- Apply **One-Step Prep**.
- Apply skin-specific **Pro Power Peel** (1-2 layers)
 - Dull Skin: **UltraBright Peel**
 - Pore Refining: **Mandelic-Malic Acid Peel**
 - Hyperpigmentation: **UltraBright Peel**
 - Lines and Wrinkles: **AdvancedRenewal Peel**
- Apply **Neutralizing Solution** and remove as directed.

3. Deep Treatment with Microneedling

- Apply **Hyaluronic Acid IonActive Serum**.
- Perform the Dermalogica Microneedling Technique.
- Wipe the skin with damp esthetic wipes to remove excess debris.

4. Dermal Layering

- Spritz skin-specific toner.
- Apply **Exo Booster**.
 - First, open the **Exo Booster** Kit and pour the exosomes into the Pro Resolution solution; this activates the exosomes.
 - Shake the solution until the exosomes have dissolved, then place the applicator on top.
- Dispense 1 drop onto the forehead, each cheek and chin. Gently spread with fingertips.

5. Home Care

- Please ensure that your client takes home the remaining **Exo Booster** to apply in the evening after the treatment, as well as in the morning and at night for 7 days.
- After applying 4 drops of **Exo Booster** to the face, with fingertips, gently spread.
- For daytime, use a mineral sunscreen such as **Invisible Physical Defense SPF 30**.
