

# exo booster service

The Exo Booster Service integrates the Exo Booster kit with dermaplaning. The exfoliation during this service prepares the skin for Exo Booster to penetrate deep into the skin's barrier promoting cell rejuvenation.

## Exo Booster Service Protocol

### 1. Double Cleanse

- Dispense 1-2 pumps **PreCleanse** and manipulate on dry face for 1-2 minutes.
- Emulsify with water and manipulate for 1-2 minutes then remove with damp sponges or esthetic wipes.
- Perform Face Mapping skin analysis.
- Dispense 1-2 pumps **Daily Glycolic Cleanser** and emulsify with water to perform a second cleanse, then remove with damp sponges or esthetic wipes.

### 2. Resurfacing

- Use **Post Extraction Solution** to degrease the skin.
- Apply a small amount of **PreCleanse** to the skin.
- Perform dermaplaning with gloves.
- Remove any residue with damp esthetic wipes.
- Apply 2 pumps of **Exfoliant Accelerator 35**. Massage over the face. Leave on for up to 5 minutes. Then remove with damp esthetic wipes.
- Dispense 2 pumps of **Retinol Accelerator** into gloved hands and apply to the face. Avoid the eye area.
  - Apply a maximum of 2 layers, allowing 1 minute in between layer applications.
- While **Retinol Accelerator** processes on the skin for up to 10 minutes, provide a Touch Therapy such as Neck & Shoulder or Stress Relief Scalp.
- Remove with damp esthetic wipes.
  - Pro-tip: If the client is still feeling elevated sensations, provide a cleanse with **Special Cleansing Gel**.

### 3. Dermal Layering

- Pour the vial into the ampoule. Shake the ampoule vigorously until the lactobacillus exosomes are fully dissolved. Attach the white applicator to the ampoule, then gently squeeze the applicator neck to dispense the product for application.
- Remove gloves and spritz **Antioxidant Hydramist**. Then apply a thin layer of **Exo Booster** with fingertips. Dispense 1 drop onto the forehead, each cheek and chin.
- Penetrate **Exo Booster** with an ultrasonic spatula. Provide 2 passes using slow, long strokes to ensure the enhanced penetration.
- Finish with **Dynamic Skin Recovery SPF 50** or **Skin Smoothing Cream** with **Invisible Physical Defense SPF 30** layered on top.

### 4. Home Care

- Please ensure that your client takes home the remaining **Exo Booster** to apply in the evening after the treatment, as well as in the morning and at night for 7 days.
- After applying 4 drops of **Exo Booster** to the face, with fingertips, gently spread.
- For daytime, use a mineral sunscreen such as **Invisible Physical Defense SPF 30**.
